| Course Outline                | This class aims at debating extensively the position of literature in the field of popular culture to research the interrelationship between the literature and the popular culture. The characteristic of modern society is diversity and pluralism so the literature cannot help expanding its field with social and cultural change. Therefore this class will help students research the meaning and status of changing literature and forecast the literary future in culture. |                                                        |                 |                 |                       |                                            |            |       |
