- **Elementary Indonesian : Book 1 & 2**

Objectives and How to Achieve Them

Students at this level relatively have no apt ability in communicating in Bahasa Indonesia. So, the purpose of this course is to establish students' skills to use the language for daily activities. At this level, the students are encouraged to be able to communicate by using learnt sentences in various contexts. Besides, they are also able to read short paragraphs from simplified materials which assist them to put the learnt patterns in context. New vocabularies are learnt if they highlight the contextual communication purposes. To practice their writing skills, they will do compose a short paragraph using simple sentences. Grammatical points are introduced but they are contextually discussed.

- **Intermediate Indonesian : Book 3**

Objectives and How to Achieve Them

Students at this level are already able to understand simple languages. So, the purpose of this course is to improve students' speaking as well as reading abilities. At this level, the students are expected to be able to communicate in Bahasa Indonesia by using simple sentences and the most frequently used vocabularies without making a lot of mistakes. Besides, they are also able to read short and simple passages, even though they sometimes have to consult their dictionaries. To support this objective, students are given selected simplified materials or other simple authentic reading materials which are of the interest of the class. First, the students are asked to read the passage. The session will then continue with comprehension and discussion questions which will lead to the oral presentation or discussion of the similar situation found in their native countries. Extension of vocabularies is done only within reasonable limits.

Course Description

Objectives and How to Achieve Them

This course stresses on active competence in the formal style of Indonesian. The students should have been able to communicate in Bahasa Indonesia easily. Sentence structures, vocabularies and affixation are not problematic any longer and the mistakes that they make are very minor. However, they are also expected to have a slight idea on the informal one, that is the language used for everyday interactions. During classes the students will be introduced to complex affixation, long sentence constructions and terminologies taken from the topics selected. The material for the course is taken from newspapers, magazines or other reading passages related to the need of the majority. Vocabulary development is done by elaborating the semantic features of the words. At this level, students practice to make formal presentation in front of the class, compare it to their own situations and give conclusion about the subject matter. They are also asked to write the summary of the reading passages.

Quizzes and Examination

1. Quizzes are given during study time.
