

COURSE // **ang2157 Grammar Skills for Speaking I**

Course description

- **Cycle** : 1
- **Course type** : Technical
- **Number of credits** : 3
- **Subject** : English

Goals

This course is designed for Intermediate I students who wish to improve their grammatical knowledge of structures used in spoken language. Class activities focus on understanding specific grammatical distinctions. They also address aspects of pronunciation related to the grammatical structures studied. Students will have the opportunity to put the principles taught in class into practice by producing short oral messages. This will allow them to acquire the skills necessary for improved oral expression. Upon completion of this course, students will be able to produce basic grammatical sentences clearly and orally.

students will be able to produce basic grammatical sentences clearly and orally.

Teaching method

This course incorporates digital technologies for the completion of certain activities and assignments.

Access conditions

According to the results of the Language School's placement test.
